

Applying for M.S./Ph.D.

The Components of your Application

Pranav Goel

Why apply?

Correct Reasons to Apply for MS

Correct Reasons to Apply for MS

- An advanced degree opens some doors in terms of job opportunities (tapping into a new alumni network > enhancing credentials/gaining experience)

Correct Reasons to Apply for MS

- An advanced degree opens some doors in terms of job opportunities (tapping into a new alumni network > enhancing credentials/gaining experience)
- You want to work in a somewhat specific area/pursue your interests in more depth (industry is getting good at this these days!)

Incorrect Reasons to Apply for MS

Incorrect Reasons to Apply for MS

- To just settle down in the US afterwards

Incorrect Reasons to Apply for MS

- To just settle down in the US afterwards
- You *just* do not want to do a job

Incorrect Reasons to Apply for MS

- To just settle down in the US afterwards
- You *just* do not want to do a job
- Your friend/brother/sister/cousin is doing it

Correct Reasons to Apply for Ph.D.

Correct Reasons to Apply for Ph.D.

- You *genuinely* like to do research and want a career as a Professor (an obvious requirement) or a Research Scientist (for industry - please check beforehand)

Correct Reasons to Apply for Ph.D.

- You *genuinely* like to do research and want a career as a Professor (an obvious requirement) or a Research Scientist (for industry - please check beforehand)
- The flexibility

Correct Reasons to Apply for Ph.D.

- You *genuinely* like to do research and want a career as a Professor (an obvious requirement) or a Research Scientist (for industry - please check beforehand)
- The flexibility
- You like teaching (good as 'one' of the reasons, impractical as the 'only' reason)

Incorrect Reasons to Apply for Ph.D.

Incorrect Reasons to Apply for Ph.D.

- To just settle down in the US afterwards

Incorrect Reasons to Apply for Ph.D.

- To just settle down in the US afterwards
- Simply do not want to do a corporate job

Incorrect Reasons to Apply for Ph.D.

- To just settle down in the US afterwards
- Simply do not want to do a corporate job
- Because it is a funded way to keep studying (seriously?)

Incorrect Reasons to Apply for Ph.D.

- To just settle down in the US afterwards
- Simply do not want to do a corporate job
- Because it is a funded way to keep studying (seriously?)
- You expect an higher industry pay once you graduate

The Components

Letter of Recommendation (LOR)

Letter of Recommendation (LOR)

- Minimum 3 (MS: 2 from Profs, one from Industry works; PhD: Try and have at least 3 from Profs)

Letter of Recommendation (LOR)

- Minimum 3 (MS: 2 from Profs, one from Industry works; PhD: Try and have at least 3 from Profs)
- It's alright to highlight the things you would like to be included (to your Prof)

Letter of Recommendation (LOR)

- Minimum 3 (MS: 2 from Profs, one from Industry works; PhD: Try and have at least 3 from Profs)
- It's alright to highlight the things you would like to be included (to your Prof)
- It's alright to ask your Prof and know how *strong* it's gonna be

Letter of Recommendation (LOR)

Letter of Recommendation (LOR)

- ✓✓ A very strong letter - the person knows you well, is familiar with your work, can talk about your potential/abilities and projects in considerable detail and in glowing terms (direct supervision and frequent interactions)

Letter of Recommendation (LOR)

- ✓ ✓ A very strong letter - the person knows you well, is familiar with your work, can talk about your potential/abilities and projects in considerable detail and in glowing terms (direct supervision and frequent interactions)
- ✓ The person recommending is experienced in research or leading software engineering teams. Higher title helps. Being well-known in academic circles is an obvious boost

Letter of Recommendation (LOR)

- ✓ ✓ A very strong letter - the person knows you well, is familiar with your work, can talk about your potential/abilities and projects in considerable detail and in glowing terms (direct supervision and frequent interactions)
- ✓ The person recommending is experienced in research or leading software engineering teams. Higher title helps. Being well-known in academic circles is an obvious boost
- ✗ A not strong/so-so LOR

Letter of Recommendation (LOR)

- ✓✓ A very strong letter - the person knows you well, is familiar with your work, can talk about your potential/abilities and projects in considerable detail and in glowing terms (direct supervision and frequent interactions)
- ✓ The person recommending is experienced in research or leading software engineering teams. Higher title helps. Being well-known in academic circles is an obvious boost
- ✗ A not strong/so-so LOR
- ✗✗ A not strong/so-so LOR from a well-known person - destructive!

Statement of Purpose (SOP)

Statement of Purpose (SOP)

- The important and relevant things that make you a good candidate - projects (quality publications can help), work ex, academic and non-academic achievements

Statement of Purpose (SOP)

- The important and relevant things that make you a good candidate - projects (quality publications can help), work ex, academic and non-academic achievements
- The place for strategic cover-ups, for example, genuine reason for drop in GPA in one or two semesters

Statement of Purpose (SOP)

- The important and relevant things that make you a good candidate - projects (quality publications can help), work ex, academic and non-academic achievements
- The place for strategic cover-ups, for example, genuine reason for drop in GPA in one or two semesters
- Have to be extremely well-written

Statement of Purpose (SOP)

- The important and relevant things that make you a good candidate - projects (quality publications can help), work ex, academic and non-academic achievements
- The place for strategic cover-ups, for example, genuine reason for drop in GPA in one or two semesters
- Have to be extremely well-written
- Tricky to evaluate, might end up as artifacts

Statement of Purpose (SOP)

- The important and relevant things that make you a good candidate - projects (quality publications can help), work ex, academic and non-academic achievements
- The place for strategic cover-ups, for example, genuine reason for drop in GPA in one or two semesters
- Have to be extremely well-written
- Tricky to evaluate, might end up as artifacts
- Yes, you have to convince the committee of your caliber. No, it should not just be a boastful compilation of your previous achievements

Statement of Purpose (SOP)

- The important and relevant things that make you a good candidate - projects (quality publications can help), work ex, academic and non-academic achievements
- The place for strategic cover-ups, for example, genuine reason for drop in GPA in one or two semesters
- Have to be extremely well-written
- Tricky to evaluate, might end up as artifacts
- Yes, you have to convince the committee of your caliber. No, it should not just be a boastful compilation of your previous achievements
- Focus on the *purpose*. Detailed discussion on why you are applying for the particular program, what you intend to do as a part of it and future goals (that make sense as an outcome of the program)

Statement of Purpose (SOP)

- The important and relevant things that make you a good candidate - projects (quality publications can help), work ex, academic and non-academic achievements
- The place for strategic cover-ups, for example, genuine reason for drop in GPA in one or two semesters
- Have to be extremely well-written
- Tricky to evaluate, might end up as artifacts
- Yes, you have to convince the committee of your caliber. No, it should not just be a boastful compilation of your previous achievements
- Focus on the *purpose*. Detailed discussion on why you are applying for the particular program, what you intend to do as a part of it and future goals (that make sense as an outcome of the program)
- Not more than 2 pages!

- GPA matters: Let no one tell you otherwise

- GPA matters: Let no one tell you otherwise
- Undergrad GPA can act as a 'negative filter'

Academic Performance

- GPA matters: Let no one tell you otherwise
- Undergrad GPA can act as a 'negative filter'
- Grades in relevant courses matter more (for CS, the CS and Maths ones)

Academic Performance

- GPA matters: Let no one tell you otherwise
- Undergrad GPA can act as a 'negative filter'
- Grades in relevant courses matter more (for CS, the CS and Maths ones)
- Constantly high/on the rise is good; decline is a concern. Being consistently good is the best (better than stellar 'comebacks')

Standardized Tests

GRE

- Again, a 'negative filter'

GRE

- Again, a 'negative filter'
- When to give: As early as possible! Ideally in the 6th (B.Tech.)/8th (IDD) semester when you have the time. Even if you plan to go after gaining some experience - GRE scores are valid for 5 years!

GRE

- Again, a 'negative filter'
- When to give: As early as possible! Ideally in the 6th (B.Tech.)/8th (IDD) semester when you have the time. Even if you plan to go after gaining some experience - GRE scores are valid for 5 years!
- Time required to prepare: Completely depends on the person. 2 months is *usually* a safe bet.

GRE

- Again, a 'negative filter'
- When to give: As early as possible! Ideally in the 6th (B.Tech.)/8th (IDD) semester when you have the time. Even if you plan to go after gaining some experience - GRE scores are valid for 5 years!
- Time required to prepare: Completely depends on the person. 2 months is *usually* a safe bet.
- Can be optional for many programs

Standardized Tests

TOEFL

- Just have to clear some thresholds (but some programs may have strict requirements!) Threshold is usually 100/120.

TOEFL

- Just have to clear some thresholds (but some programs may have strict requirements!) Threshold is usually 100/120.
- High scores can help with funded TAs/RA positions

TOEFL

- Just have to clear some thresholds (but some programs may have strict requirements!) Threshold is usually 100/120.
- High scores can help with funded TAs/RA positions
- Time Required to Prepare: Depends on how proficient you already are.

TOEFL

- Just have to clear some thresholds (but some programs may have strict requirements!) Threshold is usually 100/120.
- High scores can help with funded TAs/RA positions
- Time Required to Prepare: Depends on how proficient you already are.
- Holds for 2 years. Can be given much later than GRE (when the applications have truly begin). One might benefit in giving it soon after GRE though

TOEFL

- Just have to clear some thresholds (but some programs may have strict requirements!) Threshold is usually 100/120.
- High scores can help with funded TAs/RA positions
- Time Required to Prepare: Depends on how proficient you already are.
- Holds for 2 years. Can be given much later than GRE (when the applications have truly begin). One might benefit in giving it soon after GRE though
- Will never be optional for us

- Keep it one page - never more than 2

- Keep it one page - never more than 2
- Details not mentioned anywhere else can all be included

- Keep it one page - never more than 2
- Details not mentioned anywhere else can all be included
- The really important ones should get covered in SOP

- Keep it one page - never more than 2
- Details not mentioned anywhere else can all be included
- The really important ones should get covered in SOP
- Projects - PORs - Achievements

- Keep it one page - never more than 2
- Details not mentioned anywhere else can all be included
- The really important ones should get covered in SOP
- Projects - PORs - Achievements
- Will often not be opened or read through carefully

Thank You
